

Investment Manager – Driving Strategic Investment Projects and Innovation at EIFO

The Export and Investment Fund of Denmark (EIFO) is looking for a driven and adaptable Investment Manager to join our dynamic team. This role presents an exciting opportunity for someone eager to make a significant impact on Denmark's innovation and investment ecosystem, managing and executing strategic investment projects across a variety of industries.

Our Mission – Driving Sustainable Growth and Innovation

EIFO is Denmark's sovereign investment fund, supporting startups, scaleups, and growth companies through direct investments and fund commitments. We work closely with top-tier venture firms, corporations, and institutions to foster groundbreaking innovation and create long-term value.

The Special Investments & Platforms team is a newly established, cross-functional unit dedicated to realizing EIFO's strategic vision. Our team leads high-impact investments outside traditional mandates, builds scalable financing platforms with both public and private partners, and contributes to shaping EIFO's broader investment strategy. We are looking for a motivated Investment Manager to join us and help drive these exciting initiatives forward.

The Role

As an Investment Manager at EIFO, you will report to the Head of Special Investments & Platforms. You will play a key role in managing and supporting investment projects, working independently and with the team to execute initiatives that contribute to Denmark's innovation and economic growth. You will also collaborate closely with colleagues across EIFO and engage with both domestic and international companies in a hands-on, solution-oriented manner.

You will be responsible for:

- Leading high-impact investment projects from ideation to full implementation.
- Supporting the team on major investment projects.
- Supporting the team in developing and implementing investment processes, frameworks, and standards.
- Collaborating with venture capital funds, corporates, ministries, and other partners to build scalable investment platforms.
- Taking an active role in presenting EIFO's vision with key stakeholders, both locally and internationally.
- Contributing to the overall development and execution of EIFO's investment strategy, particularly in deep tech, life sciences, and defense sectors.

Who You Are

We are looking for an investment professional who is adaptable, hands-on, and keen to work in a fast-paced, collaborative environment.

The ideal candidate will have:

- 2-3 years of experience in top-tier management consulting, combined with 2-3 years of experience in the industry (preferably in sectors such as deep tech, life sciences, or defense).
- Proven project management skills.
- A solid understanding of venture capital, innovation, and financial principles.
- Strong problem-solving skills and the ability to handle a wide range of investment-related tasks, including administrative responsibilities when necessary.
- Strong communication and negotiation skills, capable of representing EIFO in discussions with domestic and international companies.

- The ability to manage projects independently, while collaborating effectively within a team.
- A background in economics, finance, or business is preferred, and a master's degree is an advantage.

Why Join EIFO?

- Be part of a mission-driven organization at the heart of Denmark's investment ecosystem, helping shape the future of innovation.
- Lead impactful investment projects and collaborate with a skilled, diverse team.
- Have the opportunity to influence strategic investment decisions while working in a dynamic and evolving environment.
- Access substantial capital and resources to execute your ideas and initiatives.
- Work in a collaborative and supportive environment where both your leadership and administrative contributions will be valued.

Are you our next colleague?

If you're excited about contributing to strategic investments and building platforms that shape tomorrow's economy, we'd love to hear from you.

Apply with your CV and motivation letter by **27th of August 2025**.

We use assessments and case exercises as part of the recruitment process, and reference checks are conducted at the final stage. A criminal record is requested upon employment.

The desired start date is as soon as possible.

For further information, please contact Anna Lynge Nielsen, Talent Acquisition Partner, at alni@eifo.dk. Please note that response times may be longer than usual due to the summer holiday period.

EIFO encourages candidates of all backgrounds to apply. Let's build the future together.
